Section 1 – Introduction to TransForm System	4
System Overview	5
Basic Assembly	6
Tool List	7
Pre-Trainer Prep	8
Section 2 – TransForm Components	9
TransForm Studs	10
Lateral Ties	11
Plastic Stud Wall Dimensions – 6” Walls	12
Plastic Stud Wall Dimensions – 8” Walls	13
Plastic Stud Wall Dimensions – 10” Walls	14
Plastic Stud Wall Dimensions – 12” Walls	15
System Dimension Summary	16
Standard Polystyrene Panels ¾” Thickness	17
Standard Polystyrene Panels 4” Thickness	18
Standard Polystyrene Panels 5.5” Thickness	19
Standard 90° Corner Set - 4” Thick Poly	20
Standard 90° Corner Set – 5.5” Thick Poly	21
Polystyrene Corner Dimensions – 4” Thick Poly	22
Polystyrene Corner Dimensions – 5.5” Thick Poly	23
L-channel	24
Taper Top Panels 4” Poly	25
Section 3 – Construction Techniques	26
Lower L-channel Mounting	27
TransForm Wall – Top View	28
Door Installation	29
Window Installation – Using Full Height Stud Rails	30
Window & Door Headers	31
T-Intersection Top View	32
Wall End Closures	33
Round Wall	34
Placing upper walls on top of lower ones	35
Stick Wall above TransForm System	36
Bearing Ledge Detail – 4” Difference in Width	37
2 Story TransForm Ledger – 12” to 10” to 8” to 6” With Bearings	38
Sill Plate Detail At Roof Truss	39
Brick Ledge Insert	40
Brick Ledge Corners	41

Section 4 – Basic Bracing **42**

Typical Bracing Overview	43
Typical Bracing Overview ICF Scaffolding	44
Corner Bracing – 9' High or Less	45
Corner Bracing – 10'-12' High	46
45° Offset Wall Bracing	47
45° Bump-out Wall Bracing	48
Window and Door Bracing	49
T Intersection Bracing	50
Pilaster Column	51

Section 5 – Installing Rebar **52**

Corner Rebar Installation	53
Access to Interior – Sliding Panels Up and Down	54
Open Wall Option	55

Section 6 – Pouring **56**

Concrete Placement	57
Concrete Consolidation	58
Pouring Around Windows	59

Section 7 – Subcontractors **60**

Electrical Installation	61
Attaching Drywall	62
Attaching Brick	63
Disclaimer	64
